Human: Fall Flat APK is a very fun puzzle game of the publisher 505 Games. A very popular game on PC, Xbox, Nintendo Switch and PS4, now officially released for Android version. About Human: Fall Flat First appeared in 2016, this game quickly attracted a large number of players worldwide, especially famous players on Youtube like Pewdiepie. Your task in this game is to control Bob from point A to point B. It sounds simple, but you will find it difficult right from the first step. Solve puzzles in a clumsy way In essence, Human: Fall Flat is a puzzle game combined with extremely interesting physical rules. Without enemies or scary monsters, your mission is to control Bob from the starting position to the secret portal. The game gives you a completely new approach. Instead of incorporating mysterious stories or challenging puzzles, this game requires you to solve simple requests in a clumsy and incredibly cute way. The protagonist has a human form but he moves unsteadily like a drunken person. The way to move is awkward and funny, so mastering the way of moving is also the first important thing you need to learn when playing this game. Without suggestions or rules, you are free to do whatever you want in this game. Your ultimate goal is to cross the area to find the secret gate, thereby opening up new maps. Characters in the game have hands similar to Spiderman, which means they can stick to many things. You can use it to climb higher positions or lift objects around. A funny physics puzzle platformer Each map according to a certain theme, and it is divided into several small areas with small topics. The objects in the game are quite messy and have no purpose at all. You need to learn and discover how to use them to overcome. Your main goal is to go from point A to point B, but the process of moving you has many interesting things waiting for you. Sometimes, you will be locked in a room with only a wooden crate. Use it to break doors or use as a ladder to climb over walls. The interesting thing is that the way of solving puzzles is very diverse, not confined to a certain pattern. A puzzle can be solved in different ways, all depending on the creativity of the player. 4-player co-op mode Playing alone is fun, playing with friends is even more fun. The game allows up to four players in a match. In co-op mode, you can play with friends to solve puzzles in Human: Fall Flat. Sometimes, I feel like puzzles designed for many people instead of one player. With many people, you will have many new solutions that you have never thought of before. Whether to succeed or fail, joining this fun adventure with my friends is enough for my weekend. Customize characters Human: Fall Flat gives you quite a lot of appearance to change for the character. It could be cartoon characters, superheroes or other fun shapes. You can turn Bob into a pirate, Santa Clause or Ben 10. Although there are many fun costumes, it seems that not too many players are excited about this feature. Costumes only give you a bit of excitement with the new visual experience but not affect the gameplay or provide you with special skills. Abstract 3D graphics 3D graphics of Human: Fall Flat is done in a simple and abstract way, like an incomplete game. It is worth mentioning here that the physical rules are extremely impressive and you have never seen in any game. "The world can be virtual, but the laws of physics are real." That's what the game introduces. The interface is also very simple including a joystick and two virtual keys to help you control the characters' hands. Bob moves like a child or like a drunken person. Sometimes you have to keep clinging to the wall and it's hard to keep him standing. This can be frustrating, but sometimes it makes you laugh out loud. Download Human: Fall Flat APK for Android Overall, it can be said that Human: Fall Flat is the most unique puzzle game I've ever known. The relaxation that this game brings is endless. You can play it with friends on holidays or on weekends. Together discover the puzzle of the game and help Bob fulfill his dream. Remember, discovery and creativity are the keys to winning this game! Human: Fall Flat - physical puzzle with elements of parkour in which you have to overcome intricate locations, while it is worth noting that your character is a jelly-like creature, which, moreover, is not firmly on its feet, so the usual approach to passing the level does not fit. In order to get to the goal will have to connect creativity, imagination and ingenuity and find a non-standard way of solving. In addition, you can pass levels in a cooperative mode, in a company of up to 4 people, which will further diversify the gameplay. Human: Fall Flat APK - is an unusual simulator that is built on physics. In the game you need to help a clumsy character named Bob. The game begins with Bob falling asleep and having a strange dream. He constantly flies down and on the way he meets various obstacles. You will have to solve a lot of puzzles, each of which can be solved very individually, so it all depends on You. Move or move objects, but be careful because any mistake will take your character to the beginning of the game. Will you be able to reach the end to stop this strange dream?
